

TRI-FITT CORNERS

DESCRIPTION

Tri-Fitt Corners

BASIC USE

Tri-Fitt Corners are specially designed to provide a rigid fit in Nexus™, Ductmate 35™ and Ward J-Connect™ slip-on-flange connectors.

This versatile corner is a cost effective alternative to other expensive slip-on-flange corners. Available in both 16 Ga. and 14 Ga. mild steel, the Tri-Fitt Corner will meet any job requirement.
